

Hopkins Center for Rehabilitation and Health Care

Family Visitation Policy

We are very excited to welcome back family members to our community!
We ask that you please follow our Center's policy guidelines for safe visitation.

- Please use the website's **appointment calendar** to schedule your visit.
- Pre-scheduled appointments are preferred in order to communicate how many visitors we anticipate daily.
- Upon arrival, please use the electronic screening form and the paper sign in sheet to communicate who you are visiting.
- **ONLY 2 VISITORS are allowed at a time on the residents' units.**
- If you have arrived in a group of 3 or more visitors, you may visit your loved one in our garden patio or our main dining room visit station areas.
- Please ***sign-in*** AND ***sign-out*** at the conclusion of your visit, in order to calculate how long visitors are staying daily.
- Please wear a mask during your visit.
- Unvaccinated residents and visitors should maintain 6 ft. social distancing during the visit.
- If you bring clothing or other items, you must fill out an inventory sheet.
